John Hammel "WNTI"- Diverse , eclectic, employing different vocal techniques/personas from Kate Bush to Joni Mitchell with beautiful melodies in the tradition of Brian Wilson.....
.....powerful horn work, "zen" like lyrics leaving a lot to the listener's imagination

"Fairy Tale"-
....."By the way, I liked the slightly ominous way the melody starts in the track, and also the finely controlled but wild (if the two degrees are compatible at all I reckon you nailed it!) swirls of your voice. Very evocative, and perfect Zero-G content!.....
